LMA - Labor Market Area

SMSA - Standard Metropolitan Statistical Area

Portland SMSA - Includes Cape Elizabeth, Cumberland, Falmouth, Freeport, Gorham, Old Orchard Beach, Portland, Saco, Scarborough, South Portland, Westbrook, Windham, and Yarmouth.

Lewiston-Auburn SMSA - Includes Auburn, Lewiston, and Lisbon.

Biddeford-Sanford LMA - Includes all of York County except Berwick, Eliot, Kittery, South Berwick, Wells, York, Old Orchard Beach and Saco.

Bangor-Brewer LMA - Includes Bangor, Brewer, Eddington, Glenburn, Hampden, Hermon, Holden, Old Town, Orrington, Orono, and Veazie.

1/ Preliminary estimates for current month and last month; revised estimates for year ago. Data developed and compiled in cooperation with the Bureau of Labor Statistics and the Employment and Training Administration. Estimates not seasonally adjusted.

2/ Refers to an estimate of the number of persons by place of residence who were either employed or unemployed during the survey week which includes the 12th of the month. Employment includes workers by place of residence who were involved in labor-management disputes during the survey week.

3/ An estimate of the number of workers on establishment payrolls during the survey week, by place of work.

4/ Data refers to workers who, being totally unemployed during the survey week, filed a continued claim for a full benefit payment under the regular State Unemployment Insurance Program. The insured unemployment rate cited here is defined as the percentage derived by dividing the number of continued-week claimants for the week including the 19th of the month under the regular State Unemployment Insurance Program (excluding claimants registering for a partial week of unemployment) by the sum of these claimants and the estimated number of private wage and salary workers (place of residence adjusted) covered under the Maine Employment Security Law during the week including the 12th of the same month. This insured unemployment rate should not be confused with the one defined by the Employment Security Law relative to extended benefits and other such rates as defined for specific unemployment insurance operations and research.
